

Guidelines for Public Records Requests

The City of Brockton has developed these guidelines to help members of the public who are seeking access to public records in the custody of the City of Brockton to make informed requests for public records as well as to assist the Records Access Officers (RAOs) in fulfilling those requests.

PUBLIC RECORD

Every record that is made or received by a government entity or employee is presumed to be a public record unless a specific statutory exemption permits or requires it to be withheld in whole or in part. Exemptions may be found at Chapter 4, Section 7(26) of the Massachusetts General Laws.

More information on Massachusetts Public Records Laws can be found at the following links:

<https://www.sec.state.ma.us/pre/prenotice.htm>

<http://www.sec.state.ma.us/pre/prepdf/guide.pdf>

PUBLIC RECORD REQUEST

A public records request is a request to either inspect, and/or copy, public records. There is no requirement that the request be in any particular form. Requests for public records may be made orally or in writing. Written requests can be made by hand, mail, email or fax. Telephone requests may be accepted at the discretion of the Records Access Officer. The person making the request is not required to identify himself/herself, or to provide information about the reason for the request or how the records will be used. The request must be clear enough to enable the City to conduct a meaningful search. The City may ask questions about the request in order to respond to the request fully and in a timely manner. The State acknowledges that access to information is a fundamental and necessary right of every citizen.

Further Guidance for Making a Request for Public Records can be found by following this link:

<http://www.sec.state.ma.us/pre/prereq/reqidx.htm>

Requests for records should be directed to the appropriate Records Access Officer who serves as the custodian of the requested records. The City of Brockton has designated Records Access Officers in each city department (listed below) who are responsible for coordinating their departments' responses to public records requests. If you would like to make a public records request, please contact the Records Access Officer in the city department from which you would like to request public records.

Alternatively, all public records requests can be submitted by using the form below:

Form

RECORDS ACCESS OFFICERS

Department	Phone	RAO	Business Address	Email
Animal Control	(508) 580-7835	Thomas DeChellis, Supervisor of Animal Control	446 Court Street Brockton, MA 02301	animalcontrol@cobma.us

Once your request has been received by the RAO, he or she must provide a response to your request within 10 business days (business days are Monday through Friday and do not include Saturdays, Sundays or legal holidays).

A RAO's response may include:

- Producing the requested record(s);
- Outlining what will be withheld or redacted because a specific statutory exemption may apply to the requested records permitting or requiring the records to be withheld in whole or in part;
- Identifying records being produced or intended to be produced and (if applicable) a detailed explanation of the reason(s) for the inability to provide the information within the allotted timeframe. The RAO has a total of 25 Business Days to provide a full response to your request unless: The RAO appeals to the Supervisor of Records (Secretary of State) for good cause, or you the requestor, grant additional time to comply in writing.
- Asking for further clarification or suggesting a modification to your request if it can reduce time and cost;
- If fees are going to be charged, providing an itemized good-faith estimate.

Consider how you may narrow the scope of your request to expedite the production process. The first two hours of work performed to respond to a public records request will be performed at no cost. After that, the city may charge up to \$25.00 per hour. The city may charge up to \$0.05 for

black and white paper copies and may charge the actual cost of electronic storage devices (i.e. DVDs, memory sticks, etc..).
