**458** Ordinance: An Ordinance to Provide Noise Control and Establish, and To Enforce, Civil Infraction for Violation Be it ordained by the City Council of the City of Brockton, a new ordinance to be added to the Revised Ordinances, Chapter 14 – Offenses – Miscellaneous, as Section 14-49 or in the next section available. (IN CITY COUNCIL, NOVEMBER 23, 2020, AMENDMENT PASSED BY S HAND VOTE. PASSED TO THIRD READING, AS AMENDED)

Councilor Thompson, after consultation with councilors, motioned to amend as follows: Paragraph 6 Section A to strike 50 decibels and replace with 60 decibels.

Councilor Farwell, on the amendment, stated he did research and according to CDC 60 decibels is normal talking. 70 decibels are the level for a washing machine. He was not sure that 60 decibels are the correct threshold. He recommends that this item be referred back to the ordinance committee as this shouldn't be overly restrictive.

Councilor Thompson he understands his question, but they don't take into account the source of the noise. The ordinance would call for what registers at a distance of 50 feet. Councilor Thompson said he researched the ordinances of similar cities as far as population. Most are subjective and do not list a decibel level. They wanted to be more objective. Several of the cities that had an ordinance had the level at 50 like Boston. Braintree had 60 decibels. Only one community in the state, had 65 decibels. No community had a level higher than 65 decibels. Councilor Thompson reminded that the ordinance would not go into effect until 10 or 11PM, depending on the day. He did not believe Brockton should have the highest level in the state and that 60 decibels are midscale.

Councilor Rodrigues seconds Councilor Farwell. He believes that in communities that have implemented the ordinances, anyone can get a sound meter on their phone. It may seem like a loud sound. He said when you are looking at the level of conversation, it could be breaking the ordinance and would be a joke. He believes they need a noise ordinance, but this needs to make sense. If a dishwasher is running and someone calls, very few properties are divided by 50 feet. Councilor Rodrigues urged the councilors to vote against it and doesn't understand how Boston can have a 60-decibel level, when they have planes landing and traffic. He thinks it is wasting their time and that is something he cannot support.

**210.**  
**UNFINISHED BUSINESS (CONT'D)**

Councilor Nicastro stated the applications on cell phones that measure noise are not accurate and decibel meters are much better. She said she would be able to support sending this back to the Ordinance Committee so they could get a decibel meter and test this. Councilor Nicastro said that after the November Ordinance meeting, she received a lot of calls about comments made during the meeting. One comment was made on this ordinance that some one on the council has called the police for noise over 40 times against minorities. She researched this with the police department and does not believe any of her colleagues would do that. She said when she makes calls, it's to call on behalf of her constituents.

Councilor Cruise said he had originally told Councilor Thompson that he did not want to go beyond 60 decibels and doesn't think it needs to go back to the Ordinance committee. He would be opposed to taking out a decibel number, but doesn't want this to be a subjective decision by the police. We want hard and fast numbers and want to take the idea that someone can use this against someone they don't like. He would be willing to postpone this so they can all find out how loud is 75 decibels. There has been a lot a of parties around the City over the last couple years that are just too loud for the neighbors. He also doesn't believe the other communities include the 50 feet from the source determination.

Councilor Monahan agreed with Councilor Cruise and suggested another option since 50 feet is not very far. He also agreed with Councilor Rodrigues that many neighbors are a driveway away.

Councilor Eaniri said he has spoken with Councilor Thompson and is glad the Council is finally able to put something together like this because it is long overdue and credits Councilor Thompson for this. He also agrees with Councilor Cruise that this can't drag on.

Councilor Thompson said that he has tried to be collaborative through this process and tried to put forth the best ordinance possible. He is not sure what the right outcome everyone is looking for is. He will go with the will of the Council.

Councilor Farwell said we have a state law covering disturbing the peace. If this is continued to next meeting, he would like to know, with similar ordinances in other communities, if they have enforced this and has the ordinance worked. Councilor Thompson said in his ten-year experience of similar infractions, when hearings are held, officers giving testimonies. He does not believe hearings will be dismissed simply by a clerk. Appeals would be done through district court and would be an objective process.

Councilor Cruise, as a point of information asked if there is an amendment on floor. Councilor Thomson said yes. Councilor Lally seconded the motion.

The amendment passed by a roll call vote taken by "yeas" and "nays"; eleven members present with nine voting in the affirmative. Councilors Cardoso and Rodrigues voted in the negative.

Councilor Cruise motioned to postpone item to next City Council meeting and was properly seconded. Councilor Rodrigues, on the motion, questioned why they just passed an amendment and now want to postpone for more information. Councilor Cruise answered that he voted on the amendment, in case it was going to pass tonight. He does believe this needs to be a little higher and would like to put it off. Councilor Rodrigues said that with the holidays coming up, should this be pushed to January. Councilor Cruise said he wanted to reach out to police departments in the area to see what they have and would withdraw his motion and motion to postpone until the second meeting in January. Councilor Lally, as a point of information, stated the item has been amended but that doesn't mean this

**211.**  
**UNFINISHED BUSINESS (CONT'D)**

can't be amended in the future. Councilor Cardoso believes this is all a waste of time. Councilor Thompson stated that if this is postponed, he has spoken with the police Chief and there would be less time to obtain grants for necessary equipment and that he would like to have this in place by the spring. He believes December would be more appropriate.

Councilor Cruise motioned to postpone this item until the second meeting in January and was properly seconded. Motion carried by a roll call vote taken by "yeas" and "nays"; eleven members present with ten voting in the affirmative. Councilor Thompson voted in the negative.

Attorney Resnick will read the remaining items, as the City Clerk has lost internet connection.

**Councilor's Recognition**

Councilor Lally offered a moment of silence for James Hallissey, former Fire Chief that passed today.

Councilor Cruise took a moment of personal privilege, said he was disappointed this evening’s actions. He said he took a difficult vote to stand by his principles that he believes is very important. To be personal called out and admonished for it really disappointed him. He has stood for other councilors that he may disagree with who take stands for principles.

Councilor Farwell took a moment of personal privilege, stating that he has been a public servant since 1967 going through the police academy and serving in city and state government. In his opinion, the Council looked terrible tonight. He recused because he believed when the legislative body of the city takes a certain action, that should stand and he doesn’t care about other people’s opinions and they need to respect the process. People look to them to guide the process in Brockton on legislation and setting policy. Cross talking over other people is wrong and they have to learn the limits of what are role is and what people are entitled to do. Someone from out of town may own a business here. Councilor Farwell, to President Asack, said this was a tough meeting and was made tougher than it should have been. He believes he and his colleagues have got to pull together and give people hope that we know what we are doing. He found out that they do not have to have public hearings on marijuana licenses and they need to follow ordinances and laws.

President Asack stated that the City Clerk and legislative counsel have been saying since she became president that they don’t have to have hearings, but we have to give the public the right to make their opinions heard.

Councilor Cardoso said that the process has to be fair for everyone and we can’t let our own agendas get in the way of doing what is right. She says that councilors only dig for information when they care about something by picking and choosing which agenda items need to be researched. People are paying attention and sending us information. Even if there are not public hearings, people can request transcripts and watch on cable. They need to be as transparent and fair as possible with all agenda items. Councilor Cardoso continued that people think that because they are giving their address that they have to be a Brockton resident to speak and they need to be clear about that.

President Asack commented that they have a clear and transparent process and that was the reason for having this hearing tonight and have done their best to offer the same to all applicants. She also said the reason you give your address is for the record. She didn’t like the way the hearing went, but it is done so they can move forward.

Councilor Rodrigues thanked President Asack for holding the gavel tonight. He knew this was a difficult meeting with people talking all over the place. He thought she did a great job holding everyone accountable. He believes tonight there was a failure in the system and believes neither applicant should have been put on the agenda tonight.

**COUNCILOR'S RECOGNITION (CONT'D)**

Commonwealth had a deadline to get their paperwork in by the 14<sup>th</sup>, not be on the agenda. The issue is not about public hearings but how you hold the hearings so that everyone has an opportunity to speak. The system is here to guide all of them and they each have one equal vote and one or two individuals should not dictate what happens with the Council. He said if someone is on the agenda, they should be heard. Councilor Rodrigues, to Councilor Nicastro, said he made the comment about 43 calls to the police department because that's what he was told by the police.

President Asack said that the agenda is put together through the Clerk's office. The reason things were on the agenda was because they were discussed with their attorney in advance.

Councilor Monahan thinks that these times are very tough and everyone is on edge. We need to take a deep breath, follow the rules and move on. He knows the virus is driving everybody insane.

Meeting adjourned at 9:48pm

All council business as listed on the agenda have been emailed to the City Council members in their complete form, with exception of oversized material, such as maps, photos, etc. Recommendations are based on reports from committees.
