## Randolph Route 24 over Canton Street Bridge Replacement Project

### Stage 1 Work Weekend: Route 24 Southbound

#### What is happening?

From Friday April 5 to Monday April 8, the southbound bridge along Route 24 in Randolph will be replaced. Route 24 and Canton Street below the bridge will be impacted. Weather and unexpected circumstances make all construction activities subject to change, but we will do our best to keep you updated.

#### How will this affect you?

##### Route 24

**Timing:** 8 p.m. on Friday April 5 to 4 a.m. on Monday April 8.

**Details:** As vehicles approach the bridges, travel lanes will be reduced from three lanes to two. Southbound traffic will be shifted onto the northbound bridge which will carry two lanes in each direction. After passing through the work zone, vehicles will return to the normal traffic pattern along Route 24.

##### Canton Street

**Timing:** 5 p.m. on Friday April 5 to 4 p.m. on Monday April 8.

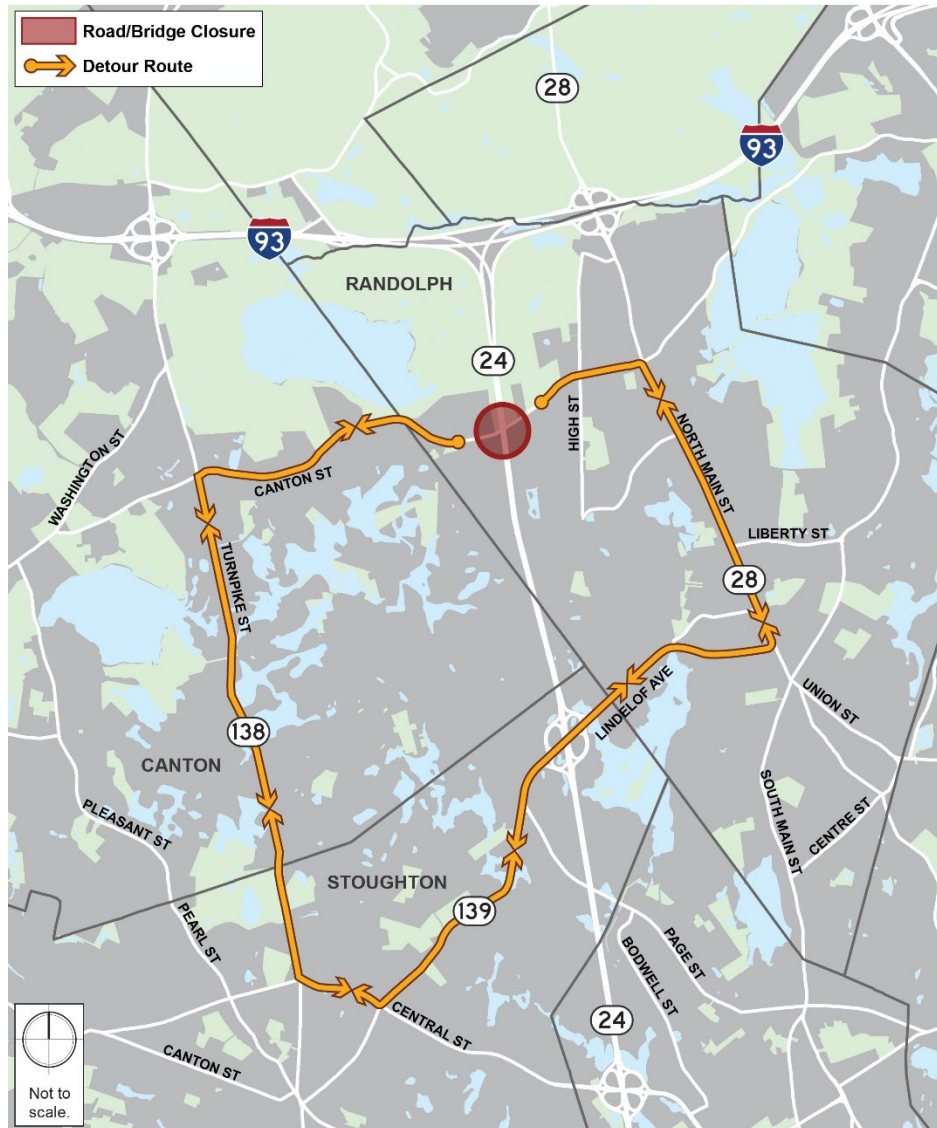

**Details:** Leading up to the closure on Friday, Canton Street will maintain one lane of alternating traffic with police detail. During the closure, Canton Street will be closed to vehicles, pedestrians, and cyclists. Vehicles will be redirected on an 11-mile detour along state roads (see back page).

#### Travel Tips

Please take care to pay attention to all signage as it is posted. Police details, changes in lane markings, temporary controls such as barriers and traffic cones, signage, and other tools will be used throughout the project to control traffic and create safe work zones within the project limits.
