ORDINANCES:

487. Ordinance: AN ORDINANCE TO PROVIDE FOR SAFE DISPOSAL OF SHARPS

Be it ordained by the City Council of the City of Brockton to adopt a new ordinance where appropriate as follows:

SHARPS DISPOSAL PLAN

Section 1. Purpose

Under 105CMR 480.000: minimum requirements for the disposal of medical or biological waste (State Sanitary Code Chapter VIII) there is a state-wide ban on the disposal of needles, syringes and lancets, collectively referred to as sharps, in the household trash. There is a great volume of residents who use sharps, syringes, or needles legally for medical treatments and/or illegally for illicit drug use. The insufficient number of safe drop-off sites for sharps has caused improper disposal of needles in household trash, parks, and public spaces. Improper disposal of sharps poses a risk to public health and safety and our waste management system. Creation of additional safe collection sites and increased public awareness will aid in the City of Brockton's efforts to curb this public health crisis.

The purpose of this ordinance is to protect the health, safety and welfare of the public and of the environment by providing for the safe and orderly collection and disposal of sharps by placing the responsibility on the providers of the products. The intent of this ordinance is to provide consumers with more convenient ways to return and ensure the safe and environmentally sound disposal of personal use sharps.

Section 2. Definitions

"Department" means the Department of Health and Human Services or Inspectional Services for the City of Brockton.

"Retailer" means any person or entity that sells sharps directly to consumers at a business located within the City of Brockton.

"Distributor" means any company, corporation, business, person or entity that supplies sharps.

"Sharps Disposal Plan" or "Plan" means a Department-approved Plan that requires Retailers and Distributors that supply Sharps to collect, secure, transport, and safely dispose of unwanted or discarded sharps.

"Sharps" means hypodermic needles, pen needles, intravenous needles, lancets, and other devices that are used to penetrate the skin for delivery of medications, to humans or animals.

"Personal Use Sharps" means all non-commercially generated, hypodermic needles and lancets that have been used or are not in their original, intact and sealed packaging and that result from personal use by humans or animals. Personal use sharps do not include sharps generated by home health aides, visiting nurses, or any other person providing professional service in a private residence.

"Proper disposal" means the lawful disposal of personal use sharps waste in compliance with the applicable provisions of state law and the State Sanitary Code.
