PETITIONS:

Councilor Derenoncourt stepped out.

Petition of Change of Control/Ownership whereby Seda Ciampa was issued 45% ownership interest in Leaf Relief, Inc. Philip C. Nessralla reduces his interest from 100% to 55%.

Clerk Cruise stated this is not a public hearing. This is the CCC has approved this and the license commission has approved this transfer and the council the Mr. Nessralla is here if they have questions. This is not a public hearing. This is simply to approve the decision of the license commission councilors. As per ordinance, the license commission is the deliberative body on this matter. They have approved the reduction in interest and so has the CCC. Their role here is strictly an up or down vote.

Grated by a roll call vote taken by “yeas” and “nays”; eight members present and all voting in the affirmative. Councilor Derenoncourt not present. Councilors Minichiello and Nicastro absent.

Councilor Derenoncourt stepped back in.

406. (UNFINISHED BUSINESS CONT.)

UNFINISHED BUSINESS:

Councilor Asack stepped out.

975. Ordinance: An Ordinance to Amend the Pay Plan Ordinance to include the Position “Deputy Commissioner of Public Works” and to set the wage scale for the position. (FAVORABLE AS AMENDED) (PASSED TO A THIRD READING AS AMENDED)

Councilor Farwell: voted against this at an earlier meeting and in front of them, they will have copies of correspondence that he received at his request from their human resources director relative to this position and the action that's being recommended tonight. They'll notice that the water systems manager position was posted on three separate occasions, January 2nd, 2025 to January 9th. January 10th, 2025 to May 1st, there were seven applicants. and then May 2nd, 2025 to May 30th, 2025. And there was one applicant. They will also notice that when they posted this position, the salary was \$87,15 to \$108,381. It was in a department head union and the rest of the handout indicates qualifications. When this came into ordinance, they were told that the state is forcing us to have a water systems manager, and he certainly understand that. What he doesn't understand is that when the city knew that Mr. Creedon was retiring, the prior incumbent in that position, apparently, they didn't bother to cross train anyone. Apparently, they didn't advertise back then for someone to come in and perhaps work with him for a period of time and maybe earn their D4 license classification. Now, they have a new salary schedule and they have a new title to the position of deputy commissioner. He has always advocated for reorganizing the Department of Public Works. The commissioner has too many reports. He's got the highway division, water, sewer, commissioner's office, refuse. But if you look at the ordinance that amends the pay plan, they've gone from a posting of \$87,000 to a minimum 137,000. Another \$50,000 just to fill the water systems manager position and a change in title. Now, going back many years, the school department was kind of famous for this. they would hire someone and they would call it a deputy superintendent's position because that carried a higher salary. He happen to think that they're here because people trust us to look at these issues and to make the kinds of decisions that need to be made to protect the interests of the city and the taxpayers. He still unconvinced that they should change the structure of the DPW, have a deputy commissioner spend this extra money and not go back and try to work out some type of a contractual agreement with Viola to serve as our water maintenance division supervisor while they train someone on staff or they re-advertise the position. And if they're going to use these salary levels, we may get many different applicants. They could, he supposes, find someone in Brockton who would be willing to study and pass the test, brought up the position in for \$50,000 at the step one and not have a full-throated evaluation of what the structure of the DPW should be. He just can't live with that. That's just not something he's comfortable doing. And he is sensitive to the fact that we're bargaining with our unions. They're telling them that they can only have a 1 and a.5% increase while they raise their health insurance costs. And yet they're going ahead and they're creating these new fairly well-paid positions. So, he's a no vote tonight. He would love to see this go back to ordinance. He thinks there needs to be a discussion with the mayor about what would be the most prudent thing to do. sign a contract and have an outside vendor serve as our water systems manager, but I'm not going to vote for this tonight.

Councilor Rodrigues: He tends to agree with council Farwell and instead of them just do an up and down vote on this particular thing.

Councilor Rodrigues motioned to refer this back to ordinance committee and was properly seconded. The motion carried by hand vote.

Councilor Asack stepped back in.
