### **D.W. Field Park Public Design Review Meeting**

Please join the City of Brockton, Town of Avon, and partners from D.W. Field Park Initiative to learn about conceptual Parkway designs spanning from Oak St to Old Pond St funded by the state's MVP Grant Program. New design concepts focus on improvements to stormwater management and also provide for road, bike & pedestrian pathways, recreation, and user safety. This meeting is being hosted at the Fuller Craft Museum, 355 Oak St, Brockton on 4/30/2026 from 6-8pm. Presentations will be given by Fuss and O'Neill engineers and project partners regarding design concepts and the D.W. Field Park Master Plan. This meeting will allow the public and other stakeholders to review designs and provide comment.
